SARWAN THONDAMALLA

CO-FOUNDER OF SARWAN. & CREATORNEX

24-3-5, GANDHI RD. ONGOLE, AP, INDIA.	Sarwannnandhofficial672007@gmail.com	www.sarwan67.com

Objective

Motivated and enthusiastic B.Tech CSE (AI & ML) student at SRM University, seeking to leverage strong problem-solving skills, AI/ML knowledge, and a passion for tech innovation to contribute to impactful projects and solutions. Actively building and scaling personal projects, startups, and AI tools with a strong entrepreneurial mindset.

Education

Mount Flores CollegeB.Tech in Computer Science and Engineering (AI & ML)
SRM Institute of Science and Technology, Kattankulathur, Chennai
2024 - 2028 | CGPA: 8.0 (Expected)

HSC - Class 12
NARAYANA JUNIOR COLLEGE, ANDHRA PRADESH
2022 - 2024 | Percentage: 82%

SSC - Class 10
BHASHYAM Higher School, ANDHRA PRADESH
2020 - 2022 | Percentage: 95%

Key Skills

Technical Skills
- Python Programming
- Arduino & IoT Prototyping (RFID, GSM, Buzzer, Display Modules)
- Web Development (HTML, CSS, JavaScript - Basic)
- Git & GitHub (Version Control)
- Automation using n8n
- Figma (UI/UX Design)
- Google Workspace (Docs, Sheets with Permissions & Automation)
- WordPress Website Management

Soft Skills
- Leadership & Team Collaboration
- Critical Thinking & Innovation
- Communication & Storytelling
- Self-learning & Consistency

AI/ML Skills
- Basic Machine Learning (using Python & libraries like scikit-learn)
- Network Traffic Analysis with ML
- AI Project Planning & Deployment Ideas

Creative & Entrepreneurial Skills
- Photography & Social Media Branding (S67 Clicks✦ under SARWAN)
- Startup & Team Management (CreatorNex)
- Content Strategy & Brand Identity
- Public Speaking & Presentation (Techno Fair, Hackathons)

SARWAN THONDAMALLA

CO-FOUNDER OF SARWAN. & CREATORNEX

Experience

- Founded SARWAN, a creative brand, and launched S67 Clicks✦, a niche photography page focusing on nature, cars, and buildings.
- Created and managed content, built brand identity, and grew social media presence organically.
- Started CreatorNex, a media startup connecting influencers with brands; inspired by Chai Bisket & Infinitum Media.
- Planned recruitment for creative roles, handled strategy, and implemented automation tools like n8n to streamline operations.

March 2024 - Present

SARWAN: Established a creative brand with a photography page called S67 Clicks✦, focused on nature and urban photography

April 2025 - Present

CreatorNex: Building a media startup connecting influencers with businesses (like Chai Bisket & Infinitum Media). Managing operations, social media, and future recruitment plans for editors and marketers

---

Communication

Implemented new procedures and technologies that improved efficiency and streamlined operations.

Projects

AI-Based Lost and Found System
Techno Fair Presentation - SRM

- RFID & GSM-based prototype using Arduino Uno to notify owners when their lost items are scanned
- Buzzer for physical confirmation and SMS notifications using SIM900A
- Tools: Arduino Uno, I2C Display, SIM900A, RFID module

GradePro - Internal/External Marks & Grade Evaluator

- Calculates grades based on internal (60) & external (75) system using predefined logic
- Implemented Python program for grading logic with proper UI and validations

University Event App (In Progress)

- Smooth, responsive app for showcasing SRM events like hackathons, ideathons, fests
- Designed for fast access to event info and registration links

AI/ML for Networking - Network Security Project (In Progress)

- Uses AI/ML models to classify traffic, detect threats, and identify anomalies

SARWAN THONDAMALLA

CO-FOUNDER OF SARWAN. & CREATORNEX

- Focused on encrypted traffic analysis with privacy preservatio

RoomiFi - Smart Roommate & Hostel Life Manager (In Development)

- Building an app for managing shared living spaces–features include expense tracking, to-do lists, and communication tools.
- Designed a minimal, student-friendly UI and working towards MVP integration with real-time roommate coordination.
- Targeted for hostel students to simplify room-sharing experiences.

n8n Automation Workflows & AI Agents

- Built custom workflows for CreatorNex using n8n to automate repetitive tasks like email alerts, CRM updates, and content planning.
- Created AI agents to streamline creator-brand operations using no-code AI + API integration.
- Explored Airtable, Telegram bots, Google Sheets, and webhook systems to enhance productivity.

Achievements	- Won Best Prototype Award at SRM Techno Fair - Finalist in SRM Intra-University Hackathon 2025 - Grew *S67 Clicks*✦ Instagram page to 60+ followers organically within first month - Built portfolio in Figma and working towards full-stack version
Personal Projects & Ventures	- **S67 Clicks**✦ - Photography page under SARWAN, focused on cars, bikes, buildings, and nature. - **French History Website** - AI-powered interactive history learning site with hover effects, videos, and glassmorphism design. - **Smart Grocery Planner App** - UI designed in Figma; aims to integrate advanced features with no-cost approach.
